EDUCATION

Bachelor of Software Engineering

Fatih Sultan Mehmet University

2023 - 2027 (expected)

SKILLS

Front-end

- HTML
- CSS
- JavaScript
- TypeScript
- React
- Redux Toolkit
- Bootstrap
- Tailwind CSS
- API Integration

Back-end

- Node
- Express
- Drizzle ORM
- Prisma
- JQuery
- Java
- PostgreSQL
- RESTful API Development
- External API Integration

COURSES

- The Complete Full-Stack Web Development Bootcamp
- React - The Complete Guide (incl. Next.js, Redux)

LANGUAGE

- English - Fluent
- Turkish - Native
- German - A1

CERTIFICATION

- TOEFL iBT 94 ([credential](#))

PROFILE

I am a software engineering student with a particular interest in web development. I have built several projects to improve my development and overall programming skills.

WORK EXPERIENCE

OBSS - Software Engineer Intern

<http://obss.tech>

React (JavaScript), Tailwind CSS, Axios, C#, ASP.NET Core, Restful API, Google map and Google AI API Integration,

- Completed a back-end and a front-end course.
- Developed a full-stack Real Estate web application adding the stuff I learned.
- Added JWT-based authentication and role-based access control for secure user management.
- Built property listing, filtering, and management features with a good UI.
- Integrated Google Gemini API for AI generated property description field when publishing a property.
- Added average price calculation to display the current market on the website when publishing a property.
- Built a real-time chat system with SignalR for live user communication.
- Organized backend code using Onion Architecture with services and repository for maintainability.
- Added SSMS database for storing users, properties, images.

InfinitumIT - Software Engineer Intern

<https://www.infinitumit.com.tr>

React (JavaScript), Tailwind CSS, Java, Spring Boot

- Developed the initial back-end for the project we are building using Java and Spring Boot.
- Used GitHub version control to track older versions.
- Developed the front-end dashboard and made it give appropriate messages.
- Developed a user friendly search page using Tailwind CSS.

Freelance Web Developer

<https://saweranursing.com>

React (JavaScript), Tailwind CSS

- Developed a professional, responsive multi-page website for a nursing service company using React and Tailwind CSS
- Made modern, mobile-friendly UI with smooth user experience and clean layout
- Integrated contact form functionality using Web3Forms

PROJECTS

Internship Management System

github.com/KeremVona/stajlog

React (JavaScript), PostgreSQL, Express, and Tailwind CSS

- Developed a full-stack platform for students to manage and generate internship reports more efficiently.
- Added JWT-based authentication.
- Built an intuitive log editor where users can record daily internship activities and improve them via AI-powered rewriting into professional, school-ready reports.
- Added support for custom document templates, with placeholders to be filled with AI-generated text.

Bug Tracking Website

github.com/KeremVona/BugList

React (JavaScript), PostgreSQL, Express, Tailwind

- Developed a full-stack bug tracking website that allows users to add, view, edit, and delete software bugs.
- Added input fields for title, description, priority, status, and category.
